FIBRE CHEMISTRY
Volume 35, Numbers 1-6, 2003
(A translation of *Khimicheskie Volokna*)

Engl./Russ.

Volume 35, Number 1, January-February, 2003

Retrospective Analysis of the Status of Textile Stock in 2001 – E. M. Aizenshtein, V. N. Efremov, and R. Shnaider 1 3

TEXTILE–2002.

Chemical Modification of Synthetic Fibres with Complex Metal Salts with Organic Ligands – N. P. Dubankova, K. I. Kobrakov, N. N. Pavlov, T. E. Platova, G. S. Stankevich, V. A. Terent'eva, and E. M. Khitrova 12 11

Effect of Phosphorus and Chromium Compounds on Thermooxidation of Polyvinyl Alcohol Fibres – E. Yu. Savel'eva and T. V. Druzhinina 17 15

Properties of Polymer Composites Based on Polysaccharides and Their Fabrication in Conditions of Solid–Phase Deformation under Pressure – N. Gorbacheva, T. V. Smotrina, A. K. Smirnov, G. A. Vikhoreva, Yu. B. Grunin, and T. A. Akopova 21 18

Effect of Chitosan on the Efficiency of Dyeing Textiles with Active Dyes – N. A. Vakhitova and V. V. Safonov 27 23

Supermolecular Structure and Properties of Polyvinyl Alcohol Films Containing a Complex of Biologically Active Substances – T. N. Yudanova, E. Yu. Aleshina, M. S. Saenko, and L. S. Gal'braikh 29 24

Kinetics of Drying of Fibre Materials and Fibre–Forming Polymers with Warming – G. I. Efremov 33 27

Autoadhesive Bonding of Modified Polyester Fibres – V. M. Gorchakova, V. A. Batalenkova, and B. A. Izmailov 39 31

Nonwoven Filter Material – T. E. Voloshchik 41 33

Effect of the Polyester Fibre Content in a Blend with Thermostable Fibres on the Flameproofing Indexes of Manufactured Materials – Yu. V. Strekalova, N. S. Zubkova, N. I. Konstantinova, and Z. Yu. Kozinda 43 34

Polyfunctional Properties of Liposomes in Preparation of Textile Materials – I. A. Sheveleva, O. A. Belokurova, T. L. Shcheglova, and B. N. Mel'nikov 48 38

Assessing the Market Stability of Chemical Industry Enterprises – O. S. Oleneva and A. A. Vasil'ev 53 42

System of Short–Term Measures in an Anticrisis Program in Chemical Industry Enterprises – L. E. Zernova and A. V. Laktionov 58 45

Current Problems in Optimization of Interorganizational Relations in Creating Networks in the Chemical Industry – A. V. Barmina and A. V. Karzova 61 47

FIBRE COMPOSITE MATERIALS

Effect of Basic Factors on the Strength of Para-Aramid Fibres in Unidirectional Organoplastics – M. Kuperman, S. L. Bazhenov, E. S. Zelenskii, and A. A. Berlin 65 56

Adhesive Properties of Aramide and Polybenzothiazole Fibres and Strength of Organoplastics Made from Them – Yu. A. Gorbatkina, V. G. Ivanova–Mumzhieva, G. S. Shul', and A. Ya. Gorenberg 73 61

REGENERATION AND INDUSTRIAL ECOLOGY

Problems of Wastewater Treatment and Methods of Solving Them – M. M. Kardash, N. B. Fedorchenko, and A. A. Fedorchenko 79 66

Properties of Cation–Exchange Polypropylene Fibre Materials – S. E. Artemenko, T. P. Ustinova, and E. I. Titorenko 83 69

Volume 35, Number 2, March-April, 2003

Manufacture of Nonwovens Abroad – E. M. Aizenshtein 87 3

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Oligomerization of Caprolactam with Aminolysis Reactions – L. N. Mizerovskii, S. N. Karaseva, V. G. Silant'eva, and O. V. Romankevich 98 12

Characteristics of the Macromolecular Reaction of the Graft Copolymer of Polyvinyl Alcohol and Polyglycidyl Methacrylate with Hydroxyethylamine – T. V. Druzhinina, I. B. Zhigalov, E. V. Sibeikina, and K. I. Kobrakov 105 17

Effect of Organosilicon Liquids on Spinning Of Microfibres from Mixtures of Polypropylene and Copolyamide – V. G. Rezanova and M. V. Tsebrenko 111 21

Improving Carbon Fibre Production Technology – A. T. Serkov, G. A. Budnitskii, M. B. Radishevskii, V. A. Medvedev, and L. A. Zlatoustova 117 26

Rheological Properties and Structure of Aqueous Solutions of Polysaccharides. Solutions of Mixtures of Sodium Carboxymethylcellulose Fractions of Different Molar Mass – A. N. Prusov, S. M. Prusova, and I. V. Ryabinina 122 31

The Problem of Cyclic Oligomers in Dyeing and Processing Polyester and Ways of Solving It – S. Yu. Vavilova, N. P. Prorokova, and Yu. A. Kalinnikov 128 35

Characteristics of the Surfactant Properties of Sf—Polyelectrolyte Complexes Based on Carboxymethylchitin – E. A. Merkovich, L. S. Gal'braikh, and V. G. Babak 131 37

MATERIALS SCIENCE

Effect of Palladium on Thermal Degradation of Fiban K-1 Fibrous Sulfonic Cation Exchanger. Ir Spectroscopic Study – L. S. Kravchuk, V. Z. Radkevich, and G. N. Lysenko 134 40

Fibres and Fabrics qith Lasting Scent. Immobilization of Fragrant Alcohols on the Surface of Fibres – B. A. Izmailov, V. M. Gorchakova, V. A. Batalenkova, V. T. Syubaeva, and N. E. Bochkarev 138 43

Principles of Development of Composite Leveling Agents for Batch Dyeing of Polyester Fibre Materials – N. P. Prorokova and S. Yu. Vavilova 143 47

Sorption of Water Vapors by Armos Fibre – L. Ya. Konovalova, M. M. Iovleva, G. S. Negodyaeva, G. A. Budnitskii, and N. N. Machalaba 146 49

Enhancement of Bleaching of Cotton Cellulose with High-Frequency Currents – S. Sh. Rashidova, A. A. Sarymsakov, D. S. Nabiev, B. B. Shoikulov, and Kh. K. Kastymova 149 52

MACHINES AND EQUIPMENT

Screw Machines with Longitudinal Circulating Liquid. Communication 1. Pressure-Flow Rate Characteristics – V. I. Yankov, E. V. Slavnov, and S. I. Urzhuntseva 152 54

MATHEMATICAL METHODS OF INVESTIGATION
Use of Interpolation Theory for Determination of the Breaking Load of Blended Yarn – Yu. S. Shustov and V. I. Sporykhina 160 59
Effect of The Relaxation Modulus on The Shape of The Stress—Strain Diagram of an Oriented Amorphous-Crystalline Polymer – A. M. Stalevich, E. V. Kikets, O. N. Stolyarov, and E. D. Saidov 164 62

PHYSICAL CHEMISTRY OF FIBRE-FORMING POLYMERS
Derivatographic Studies of the Thermal Behavior of Some Salts – I. A. Piskunova, A. A. Lysenko, O. V. Astashkina, and M. O. Basok 168 65

Volume 35 , Number 3, May - June, 2003

Trends and Changes in World Production of Chemical Fibres. An Analytical Review. Part 1. Trends in the Evolution of World Chemical Fibre Economic Structure – K. E. Perepelkin 173 3

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Oligomerization of Caprolactam by the Acidolysis Reaction. Process Kinetics – L. N. Mizerovskii, S. N. Karaseva, and V. G. Silant'eva 183 11
Effect of Inorganic and Organosilicon Additives on Pyrolysis of Hydrated Cellulose Fibre Materials – A. A. Lysenko, I. A. Piskunova, and O. V. Astashkina 189 15

MATERIALS SCIENCE
Structural, Physicomechanical, and Sorption Properties of Ternary Acrylonitrile Copolymer Fibres – M. Yu. Mukhamedzhanova, N. Yu. Shirshova, G. V. Nikonovich, M. Yunusov, N. D. Burkhanova, G. Khamrakulov, and S. Sh. Rashidova 193 19
Lightfast Polyamide Textile Fibres – I. L. Kazantseva, T. P. Ustinova, and S. E. Artemenko 198 23
Fibre Catalyst from Modified Polyacrylonitrile Fibres – R. F. Vitkovskaya, I. G. Rumynskaya, E. P. Romanova, and L. Ya. Tereshchenko 202 26
Optimization of Polypropylene Sewing Thread Production Technology – V. A. Rodionov and M. V. Sakhnik 208 30
Effect of the Structure of Cellulose Diacetate—Acetone Solutions on the Properties of Ultrafiltration Membranes – V. M. Sedelkin, L. F. Ramazaeva, G. P. Denisova, A. N. Surkova, and S. P. Apostolov 212 32
Chemical Fibre Gland Packing for Sealing Connections in Operation in Hot Water and Residual Fuel Oil – A. I. Burya, I. I. Nachovnyi, M. E. Kazakov, O. P. Chigvintseva, A. M. Trushnikov, and Iv. I. Nachovnyi 216 35

FIBRE COMPOSITE MATERIALS
Fundamental Concepts for Development and Production of Composite Materials – L. A. Oborin, V. V. Statsura, A. I. Cherepanov, F. R. Akhmetov, M. P. Cheltydashev, and D. V. Cherepakhin 220 38
Polymer Composite Materials Made from Carbon, Basalt, and Glass Fibres. Structure and Properties – S. E. Artemenko 226 43
Adsorption of Oligomers from Dilute Solutions by Carbon, Basalt, and Glass Fibres – Yu. A. Kadykova, I. S. Rodzivilova, and S. E. Artemenko 230 46

MATHEMATICAL METHODS OF INVESTIGATION
Mathematical Model of Drying of Granulated Anid – M. V. Stupa, E. K. Platonov, and V. T. Mikhailov 233 48

Computer Modeling of the Product Spun from Chemical and Wool Fibres – E. I. Bitus 237 51

Volume 35, Number 4, July-August, 2003

Trends and Changes in World Chemical Fibre Production. An Analytical Review. Part 2. Trends in the Development of Traditional and Promising Kinds of Chemical Fibres – K. E. Perepelkin 241 3

MATERIALS SCIENCE

Modified Thermostable Fibres. A Review – A. V. Volokhina 250 11

Effect of Palladium on Thermal Degradation of Fiban K-1 Fibrous Sulfonic Cation Exchanger. Study by Thermal Analysis, Epr Spectroscopy, and Mass Spectrometry – L. S. Kravchuk, V. Z. Radkevich, A. A. Ivko, S. E. Bogushevich, and O. I. Isakovich 261 19

Thermal Characteristics of Para-Aramid Fibres – K. E. Perepelkin, I. V. Andreeva, E. A. Pakshver, and I. Yu. Morgoeva 265 22

Cellulose Materials with Reduced Fire Hazard – Yu. V. Strekalova, N. S. Zubkova, N. I. Konstantinova, and Yu. K. Naganovskii 270 26

PHYSICAL CHEMISTRY OF FIBRE-FORMING POLYMERS

The Intermolecular Interaction Constant – A. T. Serkov 274 29

Hydrogen Bonds in Natural and Mercerized Cellulose Fibres Based on Raman Spectroscopic Data – D. A. Sukhov 277 31

X-Ray Study of the Effect of Heat on the Structural Parameters of Armos Fibres – V. A. Platonov, G. G. Frenkel', and A. M. Shchetinin 283 36

Paramagnetism in Fibre-Forming Poly(Phenylenebenzimidazole Terephthalamides) – E. V. Dovbii, A. I. Zhuravleva, O. V. Sidorov, G. G. Frenkel', and A. M. Shchetinin 287 39

Fragments of Heterocyclic Copolyamide Phase Diagrams – V. N. Smirnova and M. M. Iovleva 290 42

MACHINES AND EQUIPMENT

Screw Machines with Longitudinal Circulation of Liquid. Note 2. Effect of Radial Gaps on Performance – V. I. Yankov, E. D. Bakhmin, E. V. Slavnov, and S. I. Urzhuntseva 293 44

FIBRE COMPOSITE MATERIALS

Conductivity of Film Composite Materials Based on a Polymer Matrix and Carbon-Fibre Filler – I. P. Dobrovol'skaya, Z. Yu. Chereiskii, K. E. Perepelkin, and B. M. Tarakanov 302 50

Physicochemical Properties of Reinforcement of Epoxy Composites with Modified Synthetic Fibres – T. P. Ustinova and S. E. Artemenko 306 53

METHODS OF MATHEMATICAL MODELING

Formalization of the Problem of Optimum Control of the Mechanical Properties of Polypropylene Fibre – A. V. Biryukov, S. E. Artemenko, and V. P. Biryukov 312 53

Volume 35, Number 5, September-October, 2003

Production and Use of Polyester Fibres Today and Tomorrow – E. M. Aizenshtein 317 5

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Prospects for Perfecting Production Technology for Polycaproamide Used in Production of Textile and Industrial Fibres. Part I – L. N. Mizerovskii, Yu. M. Bazarov, and M. G. Pavlov 329 15
The Role of the Temperature Factor in Chemical Fibre Technology – A. T. Serkov 336 20
Low-Temperature Pyrolysis of Polyvinyl Alcohol Fibres Impregnated with the Ammonium Salt of an Organic Phosphorus-Containing Acid – T. V. Druzhinina, E. Yu. Savel'eva, and I. M. Kharchenko 342 24
Formation of the Primary Supramolecular Structure of Some Fibre Types in Conditions of Wet Spinning – S. I. Banduryan, M. M. Iovleva, and G. A. Budnitskii 349 29

MATERIALS SCIENCE
Effect of Aggressive Media on the Structure and Properties of Polycon Modified Chemisorption Materials – N. B. Fedorchenko, M. M. Kardash, and A. A. Fedorchenko 352 32
Change in the Properties of High-Strength Fibres under the Effect of Soil Microorganisms – E. V. Byzova, K. E. Perepelkin, and G. P. Meshcheryakova 355 34
Water Vapor Sorption Mechanism and Hygroscopicity of Textile Materials – S. F. Grebennikov and A. T. Kynin 360 38
Effect of Tension of Reinforcing Fibres on Hardening of the Binder – V. N. Studentsov, I. V. Cheremukhina, I. A. Mysina, and A. M. Mysin 366 42
Properties of Metallized Carbon Fibres – O. M. Sladkov and S. E. Artemenko 368 44
Selection of Polyacrylonitrile Fibre Modification Parameters – T. G. Nikitina, V. I. Besshaposhnikova, and L. G. Panova 371 46

RECYCLING AND INDUSTRIAL ECOLOGY
Some Problems of Technogenic Safety in Chemical Fibre Production – I. N. Ivanova 374 49

Utilization of Wastewater Sludges from Production of Polyacrylonitrile Fibre as an Organomineral Composition for Creation of Landscape Zones – O. V. Babakova, L. A. Tarkhanova, and S. E. Artemenko 380 53

MACHINES AND EQUIPMENT
Screw Machines with Longitudinal Circulation of Fluid. Communication 3. Intensification of Mixing Processes – E. V. Slavnov, V. I. Yankov, and S. I. Urzhuntseva 384 57

MATHEMATICAL MODELING OF PROCESSES
Analysis of the Change in Relaxation Properties of Polypropylene Fibre in Deformation – A. V. Biryukov, S. E. Artemenko, and V. P. Biryukov 391 61
Mathematical Model of the Final Stage of Orientation of Polypropylene Fibre – A. V. Biryukov, S. E. Artemenko, and V. P. Biryukov 396 64

METROLOGY
Metrological Control of Chemical Fibre Manufacture – I. D. Pupyshev 403 69

Volume 35, Number 6, November-December, 2003

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Oxidized (Cyclized) Polyacrylonitrile Fibres — Oxypan. A Review – K. E. Perepelkin 409 3

Prospects for Improving Production Technology for Polycaproamide Used in Manufacture of Textile and Industrial Fibres. Part I – L. N. Mizerovskii, Yu. M. Bazarov, and M. G. Pavlov 417 9
Semicontinuous Production of Viscose Textile Fibres – M. B. Radishevskii, A. V. Kalacheva, and A. T. Serkov 426 15
The Search for Promising Antioxidants and Thermostabilizers for Synthetic Fibres in a Number of Nitrogen-Containing Heterocycle Derivatives – K. I. Kobrakov, V. I. Kelarev, E. V. Chernoglazova, V. M. Abu-Ammar, and S. V. Gres'ko 429 17
Change in the Structure of Cotton Cellulose and Carboxymethylcellulose in Drying with Ultrahigh-Frequency Radiation – A. A. Sarymsakov, T. S. Saipiev, S. Sh. Rashidova, G. V. Nikonovich, N. Dzh. Burkhanova, S. M. Yugai, and M. Yu. Yunusov 434 21

MATERIALS SCIENCE
The Properties of Textile Materials Made from Modified Synthetic Fibres – M. Yu. Morozova, T. P. Ustinova, and N. I. Churchuk 438 25
Bioprotective Properties of Fabric Made of Polycaproamide Treated with Inorganic and Organic Reagents - M. B. Dmitrieva, N. P. Dubankova, K. I. Kobrakov, N. N. Pavlov, T. E. Platova, G. S. Stankevich, and V. A. Terent'eva 442 28
Properties of Nitron Fibre Modified with Natural Silk Wastes – I. A. Nabieva, B. B. Sadriddinov, and K. E. Ergashev 447 31
Structure and Properties of Fireproof Viscose Fibres Modified with Dimethyl Methylphosphonate – E. V. Bychkova and L. G. Panova 450 34

FIBRE COMPOSITE MATERIALS
Elastic and Strength Properties of Thermoplasts Randomly Reinforced with Short Carbon Fibres – I. A. Rashkovan, Yu. G. Korabel'nikov, and O. B. Kulachinskaya 452 36
Physicochemical Reaction in Polymer Composite Materials Made from Carbon, Glass, and Basalt Fibres – Yu. A. Kadykova, S. E. Artemenko, O. V. Vasil'eva, and A. N. Leont'ev 455 39

MATHEMATICAL MODELING OF PROCESSES
Analysis and Optimization of the Concluding Stage of Orientation of Polypropylene Fibre – A. V. Biryukov, S. E. Artemenko, and B. P. Biryukov 458 41
Mathematical Description of Deformation of a Dispersed Phase Polymer in Flow of Melts of Polymer Blends – V. G. Rezanova, Yu. V. Pridatchenko, and M. V. Tsebrenko 468 48
Computer Modeling of the Effect of Cobalt Ions on the Spectral Properties of Dye Molecules in Aqueous Solutions – V. A. Rakitina, A. E. Tret'yakova, I. A. Abronin, and V. V. Safonov 475 53

PHISICAL CHEMISTRY OF FIBRE-FORMING POLYMERS
Physicochemical Processes in Pyrolysis and Combustion of Fireproof Polyacrylonitrile and Viscose Fibres – L. G. Panova, S. E. Artemenko, and V. I. Besshaposhnikova 479 56
Approximate Method for Optimization of the Geometric Structure of Polyatomic Systems – O. Yu. Nikitin and M. V. Shablygin 483 59
